## The Man Cave

November 19, 2009

Every man needs a "Man Cave". A place where he can get away and just cut, torch, bend and weld stuff. If it happens to have a refrigerator stocked full of beer, rally stipes painted on the wall and ceiling and a hot girl on TV then all the better.

This is where I come to find my primitive self. My inner caveman. Ooo ooo fire. And what man cave wouldn't be complete without your trusty dog there to drive you nuts beging you to throw the ball a few hundred times.

Flash is the man.
